High School Graduation Requirements

South Dakota's current requirements for graduation were passed by the Board of Education Standards on July 16, 2018. Those requirements are outlined in [South Dakota Administrative Rule 24:43:11](#). The requirements include a base of required coursework and the ability for students to earn endorsements on top of that base. The requirements are designed to provide flexibility for students to meet their postsecondary and career aspirations within a framework of general requirements.

EXIT CODES FOR SPECIAL EDUCATION

2019-2020 GRADUATE DATA REPORTED TO US ED

- Total number of graduates on an IEP according to general enrollment exit codes – 610
- Total number of graduates on an IEP according to Special Ed fields exit codes – 495
- Difference of 115 students or 23.23%

IEP PROGRAM EXIT CODES (SPECIAL ED FIELD)

1 - Not receiving SE Services:

IEP team determines that the student no longer is eligible to receive Special Education services.

2- Graduated (regular high school diploma):

Students with disabilities who exited an educational program through receipt of a regular high school diploma identical to that for which students without disabilities are eligible. These students met the same standards for graduation as those students without disabilities. Participation in graduation ceremonies to receive a certificate does not qualify the student as a graduate.

3-Continues – Completed IEP team modified course requirements:

Students with disabilities whose requirements differed to those required for all students. These students may participate in graduation ceremonies, but the students are not considered graduates for reporting purposes and are still eligible to receive services.

4 - Reached maximum age:

Students are eligible to receive services to the end of the fiscal year (July 1 to June 30) in which they turn 21.

5 – Died

IEP PROGRAM EXIT REASON (SPECIAL ED FIELDS)

6 - Moved known to be continuing:

Students with disabilities that moved out of the catchment area or otherwise transferred to another district and are known to be continuing in an educational program. There need not be evidence that the student is continuing in special education, only that he/she is continuing in an education program. This definition includes students with disabilities in residential drug/alcohol rehabilitation centers, or correctional facilities.

7 - Moved not known to be continuing:

This is used when the student says they are transferring but it is not known if they will be attending a new education program/school.

8 - Dropped out:

This includes dropouts, runaways, GED recipients, expulsions, status unknown, and other exiters.

9 - Refused services:

Use this code to document students who are home schooled, or a Colony student completed > grade 8 with a religious exemption. These students would still be eligible for services if they reenrolled in public school.

10 - Completed IFSP prior to reaching maximum age (3) for Part C

IEP PROGRAM EXIT REASON (SPECIAL ED FIELDS)

I 1 – Change in IEP:

When a student has a change in their IEP, the correct way to make the change on the enrollment record is, by ending the Special Ed Fields with an exit date and an exit coded : I 1: change in IEP. You will then create a new Special Ed record within the enrollment record with the new information. When ending and starting a record, please do not use the same end/start date. A change in category or disability requires an enrollment record to be ended and a new record created. Changes in services do not require a new record.

I 2 – Student continues:

Do not use this code on records at the end of the year, the Special Ed roll over wizard will only roll forward records that do not have an end date and exit reason.

I 3 – Discontinued education – Completed IEP team modified course requirements:

These students would be coded 03-Continues – Completed IEP team modified course requirements at the end of a school year but then dropped out and didn't continue education during the next year without completing the regular graduation requirements. This code should be used to end the record that rolled forward.

I 4 – Aged Out – Completed IEP team modified course requirements:

These students will have been previously coded as 03-Continues – Completed IEP team modified course requirements until the end of the fiscal year in which they turned 21 when this code is used to end their record.

I 5 – Revocation of consent:

These students will have been eligible for special education until the point when the parent/guardian/or adult student signs off that they are revoking consent for services. This code is used to end the special ed record and the students are no longer considered a student with a disability.

Statewide Longitudinal Data System

The Student Teacher Accountability Reporting System (SD-STARS) is a Statewide Longitudinal Data System (SLDS) that drives the educational initiatives to improve instruction and student performance. The goal for SD-STARS is to securely consolidate and link all educational data that currently resides within the SD DOE. In other words, it pulls data that is already available from different sources (ex: Infinite Campus, assessments), places the data into a centralized system, and links data together. This increases data availability for reporting and analysis that is used by teachers, schools, districts, and the DOE as well as external stakeholders, such as policy makers and researchers. SD-STARS also allows for deeper and richer performance analysis by bringing student, teacher, principal, and financial data together.

Quick Reference

This document provides a quick reference for the **Special Education Exiter (SP.003.01-A)**. The report provides a list of students who exited special education. It helps identify data quality concerns if the exit code from enrollment is different from the exit codes from special education. It can also be used to fulfill reporting requirements.

The report is found under **SPECIAL EDUCATION REPORTS** in the **REPORTS** tab within SD-STARS.

- Why are students leaving special education services? (i.e., Are most students graduating or dropping out?)
- What are exit trends in special education at a school or district?
- Which students should be included in Indicator 14 Appendix A data collection?

- Yellow Arrow – once filter has been selected, there is a dropdown arrow in each column

START FILTERING

- Several ways to filter
 - By grade
 - By special ed exit code
 - By general ed exit code
- Remember to click the OK button when filtering

A DATA CHECK

- Filtered by graded
 - Selected grades 9, 10, 11, 12
- Exit Code from Enrollment has 4 options for this district
 - Selected student graduated
- Exit Code from Special Ed has 2 options for this district
 - These two options seem reasonable for the graduated exit code

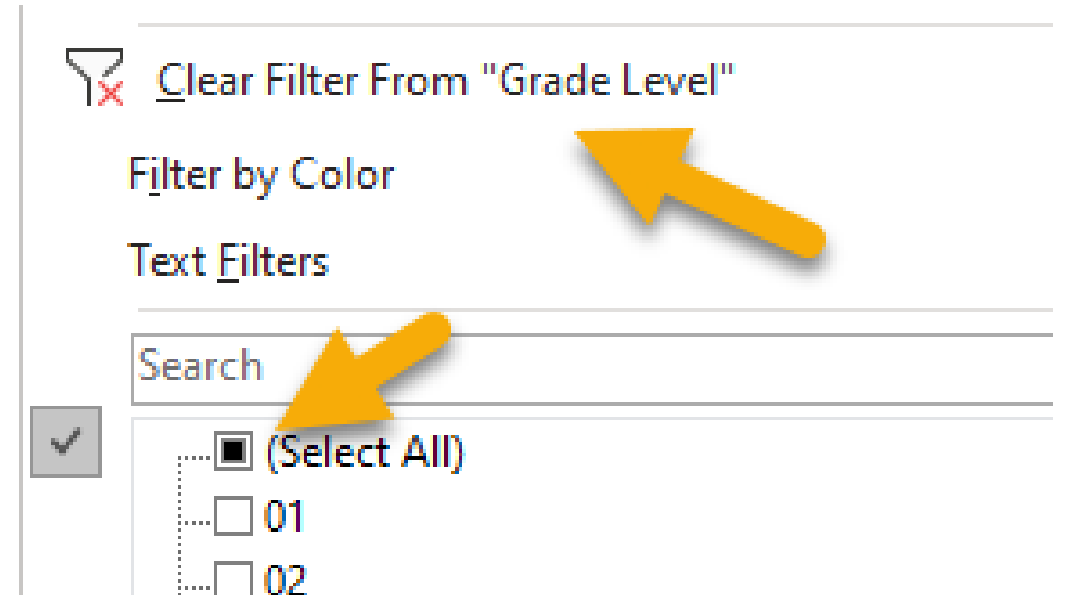

This screenshot shows the 'Filter by Color' dialog box for the 'Grade Level' filter. The 'Text Filters' section is active, and the 'Search' field is highlighted with a yellow arrow. Below the search field, a list of checkboxes is shown. The '(Select All)' option is checked. The list includes checkboxes for grades 01 through 12, as well as EC, K1, KG, PK, and (Blanks). Grades 09, 10, 11, and 12 are checked, indicated by purple arrows. The 'OK' button is at the bottom right.
